

Root canal treatment_Part 1

Identify the verb tense: The dentist determines the length of the root canals, usually with a series of x-rays.

Present Simple, Active Voice

Past Simple, Passive Voice

Present Continuous, Passive Voice

Present Continuous, Active Voice

Present Simple, Passive Voice

Identify the verb tense: At present the root canal is being filled.

Present Continuous, Active Voice

Present Simple, Passive Voice

Present Simple, Active Voice

Past Simple, Passive Voice

Present Continuous, Passive Voice

Choose the definition to match the term: Endodontist is _____

the specialist who is primarily concerned with the prevention and correction of irregularities of the teeth

the specialist who is concerned with root canal work

the specialist who deals with the prevention and treatment of gum diseases

the person who prepares patients for treatment, hand instruments and material

the specialist who performs extractions, remove cysts, correct palates

Complete the sentence: Pain is _____ symptom and without proper dental care, a mild infection can progress into a serious abscess.

frequenter

a most frequent

the frequentest

the most frequent

the most frequentest

Choose the correct alternative: Dental pulps _____ physiological changes just like all other tissues in the body.

undergo

undergoing

undergo

upgoing

undergoes

upgoes

Choose the term to match the definition: Abnormal deposition of calcium salts within tissue –

hyperplasia

demineralization

hypermineralization

calcification

hyperplastic pulpitis

Choose the term to match the definition: Abnormal increase in cells in a tissue or organ, excluding tumor formation, whereby the bulk of the tissue or organ is increased –

calcification

hyperplasia

demineralization

hypermineralization

hyperplastic pulpitis

Choose the correct alternative: The _____ root canal therapy proved to be very effective.

being performed

performed

having performed

performing

performs

Choose the synonym to the word “reduce”

reinforce

weaken

fill

enlarge

decrease

Choose the antonym to the word “severe”

empty

mild

weaken

temporary

filled

Identify the verb tense: Vitality tests are often required.

Past Simple, Active Voice

Present Simple, Passive Voice

Present Perfect, Active Voice

Present Perfect, Passive Voice

Past Perfect, Active Voice

Choose the antonym to the word “empty”

damaged

reduced

initial

filled

dry

Choose the synonym to the word “enlarge”

weaken

reinforce

increase

reduce

damage

Identify the verb tense: To prevent this chain of events, endodontic treatment or extraction is required.

Present Simple, Passive Voice

Past Simple, Active Voice

Present Perfect, Passive Voice

Present Simple, Active Voice

Present Perfect, Passive Voice

Insert the preposition: A dressing is then inserted ____ sterilize the root canal.

for

by

in

to

at

Choose the correct translation for “підвищена чутливість”:

increased sensation

increased sensitivement

increased sensitivity

increased senseness

increased sensitivation

Choose the correct translation for “рентгенівський знімок”:

X-rayed image

X-rated image

X-rate image

X-rayer image

X-ray image

Choose the correct translation for “набряк”:

swelling

swaying

swealing

swirling

swallowing

Choose the correct translation for “пломбування каналів кореня зуба”:

root canal filing

root canal filling

root canal feeling

root canal falling

root canal failing

Choose the correct translation for “пульпарна камера”:

pulp inflammation

pulp capping

pulp canal
pulp chamber
pulpal floor

Choose the correct translation for “ускладнення”:

comprehension
compound
complication
compaction
competence

Choose the correct translation for “накопичення гною”:

pus accumulates
pus accumulation
pus accumulate
pus accumulated
pus accumulatement

Choose the correct translation for “видаляти м’які тканини”:

to remark soft tissues
to remove soft tissues
to retain soft tissues
to retrieve soft tissues
to return soft tissues

Choose the correct translation for “removable partial denture”:

частковий знімний зубний протез
повний незнімний зубний протез
частковий незнімний зубний протез
мостоподібний зубний протез
повний знімний зубний протез

Complete the sentence: Root canal treatment is performed under _____.

microscope
medical treatment
antibiotics
general anesthesia
local anesthesia

Complete the sentence: _____ is placed in the mouth and around the base of the tooth to isolate the tooth and help to keep the operative field dry.

probe
gutta percha
forceps
gauze pad
rubber dam

Complete the sentence: If the tooth feels sensitive following the procedure, a standard _____ pain medication such as ibuprofen or naproxen may be taken.

prescription

rare

over-the-counter

expensive

affordable

Choose the antonym to the word “damaged”

temporary

permanent

final

healthy

initial

Identify the verb tense: The root-filled tooth will then function just as well as one with a normal pulp.

Future Simple, Active Voice

Past Simple, Active Voice

Present Perfect, Active Voice

Present Simple, Active Voice

Present Continuous, Active Voice

Identify the verb tense: The temporary filling is removed and a permanent filling is placed.

Past Simple, Active Voice

Present Perfect, Passive Voice

Present Continuous, Active Voice

Present Continuous, Passive Voice

Choose the correct alternative: Pulpitis _____ a consequence of deep caries.

are believed to be

is believed to being

has believed to be

is believed to be

is believing to be

Choose the correct alternative: There was _____ noticeable pain since the pulp died gradually.

many

few

a few

little

a little

Insert the missing word: When the pulp becomes inflamed, _____ begins to build up in the pulp cavity.

pressure

dentin

saliva
blood
air

Insert the missing word: Patient may have trouble locating the _____ of pain, confusing it with neighbouring teeth.

pulpitis
cavity
body
source
root

Choose the correct alternative: _____ untreated pulpitis leads to tooth loss.

It is telling that
It is told that
It is saying that
It is says that
It is said that

Complete the sentence: The dentist _____ the length of the root canals, usually with a series of x-rays.

determine
to determines
to determine
have determined
determines

Complete the sentence: The dentist determines the _____ of the root canals, usually with a series of x-rays.

long
longer
length
lengthy
longest

Complete the sentence: The dentist determines the length of the _____ canals, usually with a series of x-rays.

rod
rot
root
right
road

Complete the sentence: The dentist determines the length of the root canals, _____ with a series of x-rays.

instead
notwithstanding
nevertheless

usually
indeed

Complete the sentence: The dentist determines the length of the root canals, usually with a series of _____.

x-rays
probe
mirror
filling
removal

Complete the sentence: _____ is the most frequent symptom and without proper dental care, a mild infection can progress into a serious abscess.

Painless
Painful
Pain
Painkiller
Pain management

Complete the sentence: Pain is the most frequent _____ and without proper dental care, a mild infection can progress into a serious abscess.

reason
symptom
cause
trigger
cure

Complete the sentence: Pain is the most frequent symptom and without _____ dental care, a mild infection can progress into a serious abscess.

random
proper
seldom
anyhow
anyway

Complete the sentence: Pain is the most frequent symptom and without proper dental care, a mild _____ can progress into a serious abscess.

information
intention
initiative
intuition
infection

Complete the sentence: Pain is the most frequent symptom and without proper dental care, a mild infection can progress into a serious _____.

abscess
absence
absent

abuse
obscure

Choose the correct alternative: Dental _____ undergo physiological changes just like all other tissues in the body.

pulp
pulpal
pulpotomy
pulp
pulpectomy

Choose the correct alternative: Dental pulps undergo _____ changes just like all other tissues in the body.

psychological
moral
mental
financial
physiological

Choose the correct alternative: Dental pulps undergo physiological _____ just like all other tissues in the body.

choices
chances
achievements
changes
challenges

Choose the correct alternative: Dental pulps undergo physiological changes just like all other _____ in the body.

issues
dishes
niches
features
tissues

Choose the correct alternative: Dental pulps undergo physiological changes _____ like all other tissues in the body.

instead
rather
just
indeed
not

Choose the correct alternative: To _____ this chain of events, endodontic treatment or extraction is required.

promote
prevent
protect

provide
predefine

Choose the correct alternative: To prevent this chain of _____, endodontic treatment or extraction is required.

teeth
gums
events
pulp
pins

Choose the correct alternative: To prevent this chain of events, endodontic _____ or extraction is required.

disease
ailment
probing
treatment
prevention

Choose the correct alternative: To prevent this chain of events, endodontic treatment or _____ is required.

extract
extraction
extracting
extracts
extractor

Choose the correct alternative: To prevent this chain of events, endodontic treatment or extraction is _____.

required
require
requires
requiring
requirer

Complete the sentence: rubber dam is placed in the _____ and around the base of the tooth to isolate the tooth and help to keep the operative field dry.

gland
tongue
mouth
tonsil
pharynx

Complete the sentence: rubber dam is _____ in the mouth and around the base of the tooth to isolate the tooth and help to keep the operative field dry.

places
place
placed

placing
to place

Complete the sentence: rubber dam is placed in the mouth and around the _____ of the tooth to isolate the tooth and help to keep the operative field dry.

roof
top
crown
cusp
base

Complete the sentence: rubber dam is placed in the mouth and around the base of the tooth to _____ the tooth and help to keep the operative field dry.

fill
drill
remove
extract
isolate

Complete the sentence: rubber dam is placed in the mouth and around the base of the tooth to isolate the tooth and help to keep the operative field _____.

warm
soft
hard
dry
moist

Complete the sentence: If the tooth feels _____ following the procedure, a standard over-the-counter pain medication such as ibuprofen or naproxen may be taken.

hard
effective
sharp
sensitive
blunt

Complete the sentence: If the tooth feels sensitive following the _____, a standard over-the-counter pain medication such as ibuprofen or naproxen may be taken.

precedent
prevailing
procedure
prescriptive
precaution

Complete the sentence: If the tooth feels sensitive following the procedure, a standard over-the-counter pain _____ such as ibuprofen or naproxen may be taken.

medication
cause
reason

source
trigger

Complete the sentence: If the tooth _____ sensitive following the procedure, a standard over-the-counter pain medication such as ibuprofen or naproxen may be taken.

feeling
feel
to feel
feels
have felt

Complete the sentence: If the tooth feels sensitive _____ the procedure, a standard over-the-counter pain medication such as ibuprofen or naproxen may be taken.

instead
rather
indeed
following
without

Root canal treatment_Part 2

Complete the sentence: Root canal treatment is performed under _____.

microscope
local anesthesia
medical treatment
antibiotics
general anesthesia

Complete the sentence: _____ is placed in the mouth and around the base of the tooth to isolate the tooth and help to keep the operative field dry.

Probe
Gutta percha
Forceps
Gause pad
Rubber dam

Choose the correct translation for “підвищена чутливість”:

increased sensation
increased sensitivity
increased sensitivement
increased senseness
increased sensitivation

Choose the correct translation for “рентгенівський знімок”:

EPT image
X-rated image
X-ray image
TPT image

RCT image

Choose the correct translation for “набряк”:

- swaying
- swealing
- swirling
- swelling
- swallowing

Choose the correct translation for “пломбування каналів кореня зуба”:

- root canal filing
- root canal feeling
- root canal filling
- root canal falling
- root canal failing

Choose the correct translation for “пульпарна камера”:

- pulp chamber
- pulp inflammation
- pulp capping
- pulp canal
- pulpal floor

Choose the correct translation for “ускладнення”:

- comprehension
- compound
- compaction
- competence
- complication

Choose the correct translation for “накопичення гною”:

- pus accumulates
- pus accumulate
- pus accumulated
- pus accumulation
- pus accumulatement

Choose the correct translation for “видаляти м’які тканини”:

- to remark soft tissues
- to remove soft tissues
- to retain soft tissues
- to retrieve soft tissues
- to return soft tissues

Choose the synonym to the word “initial”

- severe
- mild

Complete the sentence: Pain is _____ symptom and without proper dental care, a mild infection can progress into a serious abscess.

the most frequent
frequenter
a most frequent
the frequentest
the most frequentest

Choose the term to match the definition: Abnormal increase in cells in a tissue or organ, excluding tumor formation, whereby the bulk of the tissue or organ is increased –

calcification
demineralization
hypermineralization
hyperplasia
hyperplastic pulpitis

Complete the sentence: The dentist _____ to perform the root canal procedure today.

- suppose
- to suppose
- supposing
- is to suppose
- is supposed

Choose the correct alternative: Bacteria _____ through the dead tissue in the root canal.

- spreads
- spread
- spreading
- spreaded
- has spread

Choose the term to match the definition: Treatment of teeth with necrotic pulps where root canals are often infected –

- pulpectomy
- pulpotomy
- root canal treatment
- pulp exposure
- pulp capping

Complete the sentence: Because most pulp stones are attached to the inner dentin wall, their presence can make root canal therapy very difficult of even _____.

- impossible
- impenitent
- probable
- ingenious
- possible

Complete the sentence: If this is the case, and you are in need of root canal therapy to save a tooth, your dentist will _____ to surgically remove the pulp stones.

- can
- may
- have
- must
- be

Complete the sentence: The _____ filling is removed and a permanent filling is placed.

- tempest
- temporary
- tolerant
- temperature
- teambuilding

Complete the sentence: The temporary _____ is removed and a permanent filling is placed.

- drilling
- filling
- living

screening
shrilling

Complete the sentence: The temporary filling is _____ and a permanent filling is placed.

- Present Perfect, Active Voice
- Present Simple, Active Voice
- Past Simple, Passive Voice
- Present Simple, Passive Voice

Identify the verb tense: The surgeon has already extracted the wisdom tooth.

Past Perfect, Passive Voice
Present Perfect, Active Voice
Past Simple, Passive Voice
Past Continuous, Active Voice
Past Continuous, Passive Voice

Choose the correct alternative: The most common treatment of supernumerary teeth is extraction. This often _____ to be done by an Oral Surgeon when the child reaches the appropriate age.
needs
needed
is needed
needing
need

Complete the sentence: Prevention of gingivitis and periodontal disease requires _____.
good oral hygiene, possible use of antimicrobial mouthwashes and regular dental checkups
extraction of a tooth
whitening, or "tooth bleaching", which is the most common cosmetic dental procedure
removing of upper layers of tooth crowns
tooth reshaping, one of few instant treatments now available in cosmetic dentistry

Choose the correct translation for “видаляти”
return
replace
remake
remove
reduce

Choose the correct translation for “forceps”:
шов
протез
щипці
лунка
набряк

Choose the correct translation for “запалення”:
infinity
influenza
influence
inflammation
infirmity

Choose the correct alternative: A tooth that is severely damaged _____ to be removed.
may needs
may needed
may needing
may need
may to need

Complete the sentence: After the tooth is removed, you may need _____.

- stitches
- toothpaste
- flossing
- forceps
- mouthwash

Choose the correct alternative: Before _____ your tooth, your dentist will give you a local anesthetic.

- removal
- remove
- removed
- removes
- removing

Complete the sentence: Your dentist will give you a local anesthetic to numb the area where the tooth _____.

- will have removed
- will removed
- is removed
- was removed
- will be removed

Insert the missing word: General _____ prevents pain in the whole body and will make you sleep through the procedure.

- diagnosis
- hygiene
- anesthetic
- antibiotic
- treatment

Insert the missing word: You can gently bite down on a cotton gauze pad placed over the wound to help stop the _____.

- chewing
- swallowing
- bleeding
- pain
- discomfort

Choose the correct translation for “рана”:

- gauze pad
- swelling
- denture
- wound
- bleeding

Insert the missing word: Pressure from inflammation can cause mild to extreme ____, depending upon the severity of the inflammation.

- pain
- relief
- decay
- extraction
- disease

Choose the correct alternative: Once the acute symptoms ____, extraction may be performed.

- have subsided
- has subsided
- has subside
- have subside
- have subsiding

Choose the correct alternative: The root canal therapy helped ____ the tooth extraction.

- to cause
- to lead to
- to strengthen
- to avoid
- to promote

Complete the sentence: Root canal therapy (RCT) and tooth extraction are the only ways to prevent the infection from ____ other parts of the body.

- reducing
- decreasing
- diminishing
- invading
- receding

Complete the sentence: ____ periapical abscess, tooth extraction is indicated.

- Instead of
- In case of
- In preference to
- In order to
- For the purpose of

Complete the sentence: The removed tooth can be replaced with a ____, or a bridge.

- gingiva
- denture
- implant
- jaw
- gum

Choose the correct alternative: A bridge is a ____ for one or more (but not all) of the teeth

- remaking
- remodeling
- replacement

regeneration
removal

Choose the correct alternative: A bridge may be _____ or removable.

permanent
temporary
eternal
long-lasting
chronic

Choose the term to match the definition: A medical tool that is used for grasping or holding things –

mirror
probe
forceps
drill
gause pad

Choose the term to match the definition: One of four large teeth in the back of your mouth that do not appear until you are an adult.

deciduous tooth
incisor
canine
wisdom tooth
temporary tooth

Choose the correct alternative: The dentist _____ the implant before the patient went home.

had removed
removes
will have removed
have removed
has removed

Choose the correct alternative: In most cases, supernumerary teeth _____.

is removed
removal
removes
are removing
are removed

Complete the sentence: The most common complication of a tooth extraction is _____ where the blood fails to clot and the socket heals very slowly.

pulpitis
tooth decay
tooth loss
parodontosis
dry socket

Complete the sentence: _____ until the day after extraction, as this can disturb the blood clot and could restart the bleeding.

Do not prop up your head with pillows

Do not brush your teeth carefully

Do not clean your tongue carefully

Do not rinse your mouth

Do not eat soft food

Choose the correct alternative: Taking painkillers and rinsing with warm salt water will help _____.

promote swelling

aggravate pain

speed recovery

avoid recovery

delay recovery

Choose the correct alternative: Some dental work can cause _____ in the mouth to enter the bloodstream and cause infections in other parts of the body.

bacteria

bacterias

bacteriae

bacteriums

bacterial

Insert the missing preposition: Depending ____ the problem which caused the need for extraction, the removed tooth may or may not need replacing.

for

in

by

on

of

Choose the correct alternative: If you had stitches following an extraction, you may need to return to your dentist to _____

remove them

have them removed

removing them

have them removing

removed them

Complete the sentence: You will also be told to bite down on some padding so that the bleeding from your socket _____.

ceases

sizes

seeks

stitches

seizes

Choose the one word or phrase that best keeps the meaning of the word combination "over-the-counter painkillers"

out-to-date medicines

imported medicines

illegal medicines

medicines sold without a prescription

medicines sold with a prescription

Suffix "-ous" means:

first, primitive

twice, double

full of, pertaining to

again, back

toward, in the direction of

Identify the verb tense: They said the flow of stimuli came into the brain from the eyes, ears, and other sense organs.

Future Simple, Active Voice

Present Simple, Passive Voice

Past Simple, Active Voice

Identify the verb tense: General anesthetic will make you sleep through the procedure.

Past Simple, Active Voice

Future Simple, Passive Voice

Future Simple, Active Voice

Present Simple, Active Voice

Present Perfect, Active Voice

Choose the correct translation for "flossing":

чищення зубною ниткою

полоскання

профілактика

знеболення

видалення

Choose the correct translation for "to improve appearance":

підтримати стан

утримувати частини тріснутого зуба

покращити зовнішній вигляд

встановлення постійної коронки

у порівнянні з

Choose the correct translation for "the entire tooth":

зламаний зуб

тріснутий зуба

підтримати зуб

постійний зуб
увесь зуб

Choose the correct translation for “jaw”:

мостоподібний протез
сплав
щелепа
зуб
ясна

Choose the correct translation for “to support a tooth”:

підтримати зуб
встановити зуб
зламати зуб
видалити зуб
змістити зуб

Choose the correct translation for “to stitch”

видаляти
розповсюджувати
розширювати
зашивати
заповняти

Complete the sentence: After the tooth is removed, you may need _____
wound.
socket.
stitches.
candies.
solid food.

Complete the sentence: The dentist will _____ removed the wisdom tooth by the end of this week.

have
has
does
can
did

Complete the sentence: The dentist will have _____ the wisdom tooth by the end of this week.

removes
removing
not removing
removed
remove

Complete the sentence: The dentist will have removed the _____ tooth by the end of this week.

wise
wisest
wiser
unwise
wisdom

Complete the sentence: The dentist will have removed the wisdom _____ by the end of this week.

tonsil
tooth
gum
gland
tongue

Complete the sentence: The dentist will have removed the wisdom tooth by the end of this _____.

weakness
weed
weep
week
weak

Complete the sentence: _____ the tooth is removed, the area is closed and the gums are stitched together.

After
Before
Instead
Indeed
Until

Complete the sentence: After the tooth is removed, the _____ is closed and the gums are stitched together.

urea
are
aerial
area
air

Complete the sentence: After the tooth is removed, the area is _____ and the gums are stitched together.

chosen
chiseled
closed
open
fractured

Complete the sentence: After the tooth is removed, the area is closed and the _____ are stitched together.

teeth
glands
roots
gums
crowns

Complete the sentence: After the tooth is removed, the area is closed and the gums are _____ together.

stitch
stitches
stitching
stitcher
stitched

Complete the sentence: After the tooth is removed, the area is closed and the gums are stitched _____.

except
together
apart
along
among

Complete the sentence: The _____ has already extracted the wisdom tooth.

surgeries
surgeons
surgical
surgeon
surgery

Complete the sentence: The surgeon _____ already extracted the wisdom tooth.

has
have
did
does
would

Complete the sentence: The surgeon has _____ extracted the wisdom tooth.

rather
indeed
already
never
instead

Complete the sentence: The surgeon has already _____ the wisdom tooth.

extracts
extracting
extractor
extracted

extract

Complete the sentence: The surgeon has already extracted the _____ tooth.

unwise
wisdom
wise
wisest
wiser

Insert the missing word: _____ anesthetic prevents pain in the whole body and will make you sleep through the procedure.

Topical
Application
Regional
General
Local

Insert the missing word: General anesthetic _____ pain in the whole body and will make you sleep through the procedure.

Tooth extraction_Part 2

Complete the sentence: If this is not the case, then a follow-up visit is not usually necessary _____ you are experiencing problems.

whether
unless
not only
in case

if

Complete the sentence: Although the vast majority of extractions are performed _____, as with all surgical procedures there are some risks involved.

- save
- safely
- safe
- safer
- savely

Complete the sentence: Potential _____ of the surgery include swelling, extended bleeding, severe pain and a fever.

- treatment
- follow-up
- problem
- complications
- diagnosis

Complete the sentence: Your dentist will be able to treat this problem easily using antibiotics and _____ the wound.

- create
- remove
- fill
- avoid
- dress

Complete the sentence: Wisdom teeth are also known as _____.

- third molar teeth
- lateral incisor teeth
- central incisor teeth
- first molar teeth
- second molar teeth

Complete the sentence: The _____ nerve, which supplies sensation to the right or left half of the chin and lower lip, is at risk of being struck while removing wisdom teeth, usually by accidental damage with a surgical drill.

- inferior alveolar
- buccal
- cranial
- analgesic resistant
- lingual

Complete the sentence: Dry sockets develop when _____.

- the patient doesn't drink enough water in the first 24 hours following surgery
- the surgeon does not use local anesthesia during surgery
- the blood clot at the site of surgery disintegrates or is dislodged
- the patient does not take their prescribed medications
- the surgeon does not use enough care during surgery

Choose the correct translation for “знеболювальне”:

- painlessness
- painkiller
- painless
- painstaking
- painfulness

Choose the correct translation for “кровоточивість”:

- blood
- bloodline
- bleeding
- bloating
- blasting

Choose the correct translation for “запобігати”:

- prevent
- predict
- prescribe
- perceive
- produce

Choose the correct translation for “хірургічна стоматологія”:

- dental surgery
- dental support
- dental syringe
- dental service
- dental sanitation

Choose the correct translation for “видалення зуба”:

- tooth excision
- tooth extirpation
- tooth exfoliation
- tooth excavation
- tooth extraction

Choose the correct translation for “запалення”:

- inflames
- inflammation
- inflammity
- inflammement
- inflaming

Choose the correct translation for “поширення інфекції”:

- spread of infection
- sprain of infection
- spared of infection
- spear of infection
- sparse of infection

Choose the correct translation for “to interfere”:

- виявляти
- виділяти
- опитувати
- оглядати
- втручатися

Choose the correct translation for “socket”:

- шов
- лунка
- причина
- набряк
- порожнина

Choose the correct translation for “solid”:

- тимчасовий
- постійний
- твердий
- м’який
- інструментальний

Complete the sentence: In most cases, the recovery period _____ only a few days.

- last
- is lasts
- is lasted
- lasting
- lasts

Complete the sentence: After 24 hours, _____ gently with warm salt water several times a day to reduce swelling and relieve pain.

- rinse your mouth
- brush your teeth
- clean your tongue
- floss between your teeth
- wash your dentures

Complete the sentence: Change gauze pads _____ they become soaked with blood.

- before
- as soon as
- not sooner than
- after
- until

Insert the preposition: Removing the tooth can help keep infection _____ spreading to other areas of your mouth.

- of
- by

from
for
at

Complete the sentence: A tooth extraction should be done _____ possible to avoid the spread of infection and more serious problems.

not sooner than
after
until
as soon as
before

Complete the sentence: It is important to avoid hot food and drink before your anaesthetic has _____, as you may accidentally burn your mouth or bite your cheek while it is numb.

wore off
wered off
wear off
worn off
wearing off

Complete the sentence: After the tooth ____ successfully _____, there tends to be some bleeding and your dentist may use stitches to fasten the affected area.

has ... removes
has ... removing
has being ... removed
has ... removed
has been ... removed

Choose the correct alternative: You will also be told to bite down on some padding so that the bleeding from your socket _____.

sizes
seeks
stitches
ceases
seizes

Complete the sentence: In some cases, tooth extraction can be quite _____ to perform, so your dentist may have to cut through your gum to reach the tooth's root.

tricky
painless
safe
quick
easy

Complete the sentence: _____ to reach the root is also an option.

Drilling through the bone
Filling root canals with gutta-percha
Extracting the adjacent teeth

Flossing between the teeth
Rinsing the mouth

Choose the correct alternative: It is important to remove the entire root as any remaining tissue could lead to an infection or even _____, an abscess.

- badder
- bad
- worse
- the worst
- the baddest

Complete the sentence: It is normal to remain at your dental clinic until the bleeding _____ which typically takes about ten minutes.

- intensifies
- subsides
- increases
- starts
- strengthens

Complete the sentence: It is usually recommended that you go home and relax to aid the _____ especially if you have had a general anaesthetic or a sedative.

- inflammation process
- extraction procedure
- root canal treatment
- spread of infection
- healing process

Complete the sentence: It is normal to experience some swelling and discomfort in the affected area for a couple of days _____ extraction.

- prior to
- long before
- before
- following
- as soon as

Complete the sentence: Similarly, you may feel _____ in the jaw but this should be strictly temporary.

- stiff
- stiffness
- stiffened
- stiffed
- stiffener

Choose the correct alternative: Try to avoid chewing on the side of your mouth where you _____ the tooth _____ for a few days afterwards

- have had ... removed
- has ... being removed
- has had ... removed

have had ... removed

has ... been removed

Complete the sentence: Make sure not to drink alcohol or smoke for _____ 24 hours following an extraction as this can affect the healing process.

at least

at last

at lose

at loose

at lost

Complete the sentence: Before _____ an extraction your dentist will give you a thorough oral examination and discuss your dental and medical history.

taking

receiving

administering

diagnosing

undergoing

least

Complete the sentence: An implant _____ come loose like a denture can.

do not
have not
are not
does not
is not

Complete the sentence: Dental implants also benefit general oral health because they do not have to be _____ to other teeth, like bridges.

treated
diagnosed
prevented
examined
anchored

Complete the sentence: Dental implants also _____ general oral health because they do not have to be anchored to other teeth, like bridges.

benefit
damage
impair
disrupt
worsen

Complete the sentence: Dental implants also benefit general _____ because they do not have to be anchored to other teeth, like bridges.

oral health

oral hygiene
oral lesion
dental disease
dental problems

Complete the sentence: Dental implants also benefit general oral health because they do not _____ to be anchored to other teeth, like bridges.

has
have
to have
to has
having

Complete the sentence: Dental implants also benefit general oral health because they do not have to be anchored to _____ teeth, like bridges.

another
one
other
each
either

Complete the sentence: Dental implants also benefit general oral health _____ they do not have to be anchored to other teeth, like bridges.

despite
although
in spite of
despite of
because

Choose the correct variant: Because implants fuse to your _____, they provide stable support for artificial teeth.

pharynx
salivary gland
tongue
jawbone
tonsil

Choose the correct variant: Because implants fuse to your jawbone, they _____ stable support for artificial teeth.

provide
prevent
perceive
preserve
prevail

Choose the correct variant: Because implants fuse to your jawbone, they provide stable _____ for artificial teeth.

surround
secure

support
survive
search

Choose the correct variant: Because implants fuse to your jawbone, they provide stable support for _____ teeth.

artificial
primary
milk
deciduous
temporary

Choose the correct variant: Dentures and bridges mounted to implants won't slip or shift in your mouth — an especially important benefit when_____.

ate and spoke
eat and speak
have to eat and speak
do not eat and speak
eating and speaking

Choose the correct variant: Dentures and bridges mounted to implants won't slip or shift in your mouth — an especially important _____ when eating and speaking.

disruption
impairment
disorder
lesion
benefit

Choose the correct variant: This secure fit helps the dentures and bridges — as well as individual crowns placed over implants — feel more natural ____ conventional bridges or dentures.

then
that
this
than
those

Choose the correct variant: For some people, ordinary bridges and dentures are simply not comfortable or even possible, _____ sore spots, poor ridges or gagging.

although
despite
due to
in spite of
though

Choose the correct variant: In addition, ordinary bridges must _____ to teeth on either side of the space left by the missing tooth.

be attached

are attached
is attached
to be attached
attached

Choose the correct variant: An _____ of implants is that no adjacent teeth need to be prepared or ground down to hold your new replacement tooth/teeth in place.

disruption
impairment
disorder
advantage
lesion

Choose the correct variant: To receive implants, you need to have healthy gums and adequate bone to _____ the implant.

surround
secure
survive
search
support

Choose the correct variant: You must also commit to _____ these structures healthy.

keeps
keep
keeper
kept
keeping

Choose the correct variant: Meticulous oral hygiene and _____ dental visits are critical to the long-term success of dental implants.

regular
reversal
recurring
relapsing
restorative

Choose the correct variant: Implants are usually more expensive than other methods of tooth _____, and most insurance carriers typically cover less than 10 percent of the fees.

replacement
refilling
removing
revealing
realizing

Choose the correct translation for “штучні зуби”:

natural teeth
artificial teeth

permanent teeth
deciduous teeth
temporary teeth

Choose the correct translation for “кістка щелепи”:

gingiva
jawbone
socket
alveolus
root

Choose the correct translation for “мости”:

bricks
braces
bridges
bounds
beams

Choose the correct translation for “відсутні зуби”:

missing tooth
most teeth
major teeth
minor teeth
moving teeth

Choose the correct variant: We saw the procedure _____ in real time mode.

been performed
be performed
being performed
was performed
is performed

Complete the sentence: Implant supported bridges _____ to implant abutments in the same way as a single tooth implant replacement.

attaches
attaching
attach
attacher
to attach

Complete the sentence: A fixed bridge may _____ as few as two teeth.

to replace
replacing
replaced
replacer
replace

Complete the sentence: The primary use of dental implants is to _____ dental prosthetics.

prevent
treat
support
examine
prescribe

Complete the sentence: The primary _____ of dental implants is to support dental prosthetics.

using
use
used
uses
user

Complete the sentence: The _____ use of dental implants is to support dental prosthetics.

primary
preventing
prognosing
predicting
prophylactic

Complete the sentence: The primary use of dental implants is to support dental _____ .

prosthetics
prevention
prophylaxis
precaution
provision

Complete the sentence: Modern dental implants _____ osseointegration, the biologic process where bone fuses tightly to the surface of specific materials such as titanium and some ceramics.

take care of
depend from
result of
caused by
make use of

Complete the sentence: Modern dental implants make use of osseointegration, the biologic process where bone fuses _____ to the surface of specific materials such as titanium and some ceramics.

loosely
arbitrarily
deliberately
softly
tightly

Complete the sentence: Modern dental implants make use of osseointegration, the biologic process where bone fuses tightly to the surface of specific materials _____ titanium and some ceramics.

as well as
such as
either...or
neither...nor
and...so

Complete the sentence: Modern dental implants make use of osseointegration, the biologic process where bone fuses tightly to the _____ of specific materials such as titanium and some ceramics.

face
root
surface
inside
inner part

Complete the sentence: Modern dental implants make use of osseointegration, the biologic process where bone _____ tightly to the surface of specific materials such as titanium and some ceramics.

refuses
confuses
observes
fuses
convinces

Complete the sentence: The integration of implant and bone can support physical _____ for decades without failure.

leads
lads
loans
loads
less

Complete the sentence: For individual tooth_____, an implant abutment is first secured to the implant with an abutment screw.

replenishment
retrieval
reprimand
rehearsal
replacement

Complete the sentence: The integration of implant and bone can support physical loads for decades without_____.

to fail
fails
failed
fellow
failure

Complete the sentence: For individual tooth replacement, an implant _____ is first secured to the implant with an abutment screw.

abuse
abutment
abrasive
appraise
abandon

Complete the sentence: The integration of implant and bone can support physical loads for decades _____ failure.

until
before
behind
after
without

Complete the sentence: For individual tooth replacement, an implant abutment is first _____ to the implant with an abutment screw.

secure
secures
secured
securing
securer

Complete the sentence: The integration of implant and bone can support physical loads for _____ without failure.

decades
demands
decorates
detrimental
decaded
erivatives

Complete the sentence: For individual tooth replacement, an implant abutment is first secured to the implant with an abutment_____.

crew
crown
screw
crowd
crowding

Complete the sentence: The integration of implant and _____ can support physical loads for decades without failure.

bone
both
breast
breastbone
bond

Complete the sentence: For individual tooth replacement, an implant abutment is _____secured to the implant with an abutment screw.

- fast
- first
- fist
- fond
- find

Complete the sentence: A crown is then connected to the abutment with dental cement, a small screw, or fused with the _____ as one piece during fabrication

- abuse
- abrasive
- abutment
- appraise
- abandon

Complete the sentence: A crown is then _____ to the abutment with dental cement, a small screw, or fused with the abutment as one piece during fabrication

- connects
- connect
- to connect
- to connects
- connected

Complete the sentence: A dental prosthesis is then connected to the abutment with dental cement, a small screw, or _____ with the abutment as one piece during fabrication

- fused
- fuse
- to fuse
- fuses
- fusing

Complete the sentence: A dental prosthesis is then connected to the abutment with dental cement, a small screw, or fused with the abutment as one _____ during fabrication

- piece
- nice
- niece
- breathe
- pitch

Complete the sentence: Dental implants, in the same way, can also be used to retain a _____tooth dental prosthesis either in the form of a fixed bridge or removable dentures.

- none
- nothing
- much
- multiple
- more

Complete the sentence: Dental implants, in the same way, can also be used to retain a multiple tooth dental prosthesis either in the form of a fixed bridge or _____ dentures.

- remove
- removed
- removing
- removable
- removes

Complete the sentence: Dental implants, in the same way, can also be used to retain a multiple tooth dental prosthesis _____ in the form of a fixed bridge _____ removable dentures.

- neither ... nor
- either ... or
- as well ... as
- such as
- and ... and

Complete the sentence: Dental implants, in the same way, can also be used to _____ a multiple tooth dental prosthesis either in the form of a fixed bridge or removable dentures.

- restore
- remove
- revise
- retain
- relieve

Complete the sentence: Dental implants, in the same way, can also _____ to retain a multiple tooth dental prosthesis either in the form of a fixed bridge or removable dentures.

- are use
- be using
- are used
- is used
- be used

Complete the sentence: An implant supported bridge (or fixed denture) is a group of teeth _____ to dental implants so the prosthetic cannot be removed by the user.

- restored
- removed
- revised
- relieved
- secured

Complete the sentence: An implant supported bridge (or fixed denture) is a group of teeth secured to dental implants so the prosthetic cannot be _____ by the user.

- remove
- removed
- removes
- removing
- remover
